Updated 19 May 2021

Taiwan was a Covid success story. Now it's fighting its biggest outbreak (CNN news, 17 May 2021)

- + <https://edition.cnn.com/2021/05/17/asia/taiwan-covid-outbreak-intl-hnk/index.html>
- + the outbreak was first detected among pilots, but cases have since been found in the community.
- + On May 8, “the two new infections brought the total number of potentially related infections among CAL pilots, employees of the **Novotel hotel** at Taoyuan **International Airport**, and some of their relatives to 31 as of Saturday (May 8, 2021). (CAN-Focus Taiwan: <https://focustaiwan.tw/society/202105080014>)

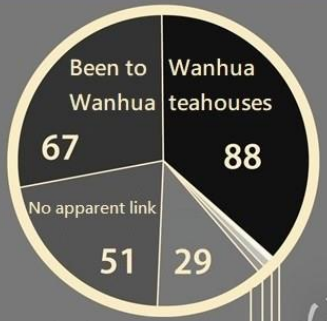

On 18 May, 2021

- ✦ The country has reported daily domestic infections of more than 100 since May 15, when the CECC raised the COVID-19 alert for both Taipei and New Taipei. (CAN Focus Taiwan: <https://focustaiwan.tw/society/202105190001>)

New domestic COVID-19 cases confirmed on May 18

New cases' link to known clusters

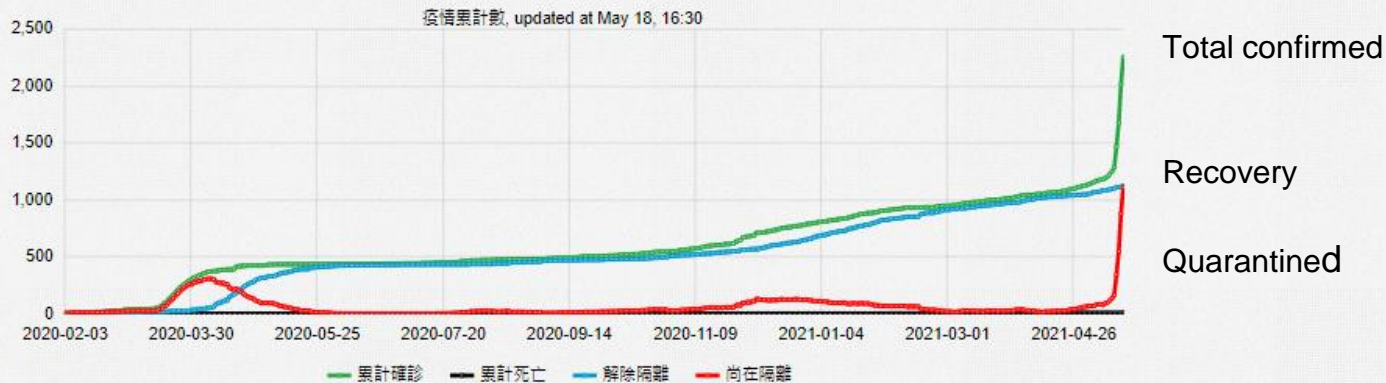

- Links under investigation
- Lion Club International 2
 - Group temple visit 2
 - Yilan games arcade 1
